

SUBCHAPTER D : STANDARDS APPLICABLE TO TRANSPORTERS OF HAZARDOUS WASTE

§335.91. Scope.

(a) This subchapter establishes standards for transporters transporting hazardous waste to off-site storage, processing, or disposal facilities. These standards are in addition to any applicable provisions contained in Subchapter A of this chapter (relating to Industrial Solid Waste and Municipal Hazardous Waste Management in General).

(b) This subchapter does not apply to on-site transportation of hazardous waste by generators or by owners or operators of storage, processing or disposal facilities.

(c) A transporter of hazardous waste must also comply with any standards applicable to generators of hazardous waste if he:

(1) Transports hazardous waste into the state from a foreign country; or

(2) Mixes hazardous waste of different Department of Transportation shipping descriptions by placing them into a single container.

(d) Transporters who store hazardous waste are owners or operators of storage facilities and, as such, are also subject to the permit requirements and storage standards contained in this chapter.

§335.92. EPA Identification Number.

A transporter must not transport hazardous wastes without having received an Environmental Protection Agency (EPA) identification number.

§335.93. Hazardous Waste Discharges.

(a) In the event of a discharge of hazardous waste during transportation, the transporter shall notify the commission as soon as possible and not later than 24 hours after the occurrence according to the provisions of the Texas Water Code, §26.039, and the procedures set out in the State Oil and Hazardous Substances Spill Contingency Plan, and also take appropriate immediate action to protect human health and the environment (e.g., notify local authorities, dike the discharge).

(b) If a discharge of hazardous waste occurs during transportation and a commission official acting within the scope of his official responsibilities determines that immediate removal of the waste is necessary to protect human health or the environment, that official may authorize the removal of the waste by transporters who do not have EPA identification numbers and without the preparation of a manifest.

(c) An air, rail, highway, or water transporter who has discharged hazardous waste must also:

(1) Give notice, if required by 49 Code of Federal Regulations §171.15, to the National Response Center (800-424-8802 or 202-426-2675); and

(2) Report in writing as required by 49 Code of Federal Regulations §171.16 to the Director, Office of Hazardous Waste Materials Regulations, Materials Transportation Bureau, Department of Transportation, Washington, D. C. 20590.

(d) A water (bulk shipment) transporter who has discharged hazardous waste must give the same notice as required by 33 Code of Federal Regulations §153.203 for oil and hazardous substances.

(e) A transporter must clean up any hazardous waste discharge that occurs during transportation or take such action as may be required or approved by the commission so that the hazardous waste discharge no longer presents a hazard to human health or the environment.

§335.94. Transfer Facility Requirements.

(a) Unless the executive director determines that a permit should be required in order to protect human health and the environment, a transporter who stores manifested shipments of hazardous waste in containers meeting the requirements of §335.65 of this title (relating to Packaging) at a transfer facility for a period of ten days or less is not subject to the requirement for a permit under §335.2 of this title (relating to Permit Required), with respect to the storage of those wastes provided that the transporter complies with the following sections:

(1) 40 Code of Federal Regulations §265.14 (relating to Security);

(2) 40 Code of Federal Regulations §265.15 (relating to General Inspection Requirements);

(3) 40 Code of Federal Regulations §265.16 (relating to Personnel Training);

(4) 40 Code of Federal Regulations Part 265, Subpart C;

(5) 40 Code of Federal Regulations Part 265, Subpart D (except §265.56(j)) and §335.113 of this title (relating to Reporting of Emergency Situations by Emergency Coordinator);

(6) 40 Code of Federal Regulations Part 265, Subpart I.

(b) The executive director may require a permit for that portion of a facility otherwise exempted from that requirement under subsection (a) of this section, with respect to the storage of hazardous waste in containers, if the facility's operation also includes other storage and processing of hazardous waste which is not exempt under subsection (a) of this section.
